**Activity:** Gallery Images  
**Purpose:** To create mental images while reading.

1. Teacher explains the concept of using images to represent information. Show 2 - 4 examples of different images representing different content area concepts. Discuss how images correspond to information.

2. In small groups, have students read a section of expository text and create 2 - 4 images to represent the content. Students share images with classmates.

3. Start a gallery on a classroom or hallway wall to exhibit images!
